Full-surface image on rear and side walls

A textile fabric printed according to your wishes (logo or image) is clamped in an aluminium tensioning frame. This thin construction is built in front of the back wall and creates a continuous image. Of course, the side wall can also be printed. It makes your stand appearance much more visible and lively and your products or services will be noticed from a distance.

It is especially suitable for the stand type SMART without ceiling construction with two open sides (corner stand). For the PLUS and PRESTIGE stand types, the print is one metre shorter due to the cabin.

The price per m² is CHF 135.-
